

CLOUD SECURITY CONCEPTS MADE EASY FOR YOUR ENTERPRISE

01

Implement **Sturdy** **Access Controls** In Your Cloud Security

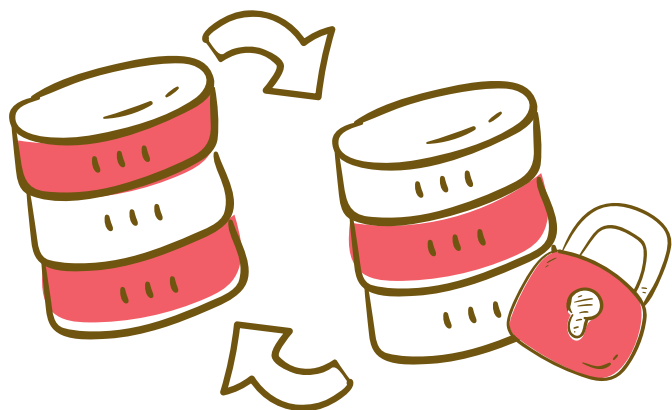

02

Make Sure You Have **Multi-Factor** **Authentication** In Place

03

**Follow The Principle
Of Least Privilege To
Limit Data Access**

04

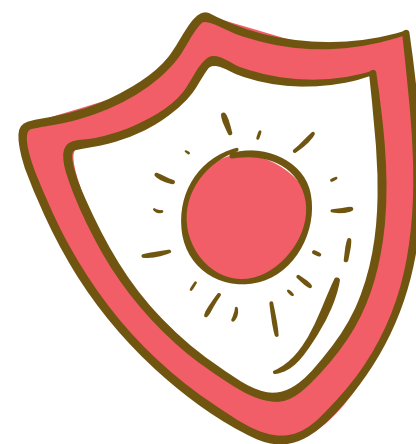

Invest In A **Virtual
Private Network**
(VPN) For Secure
Access

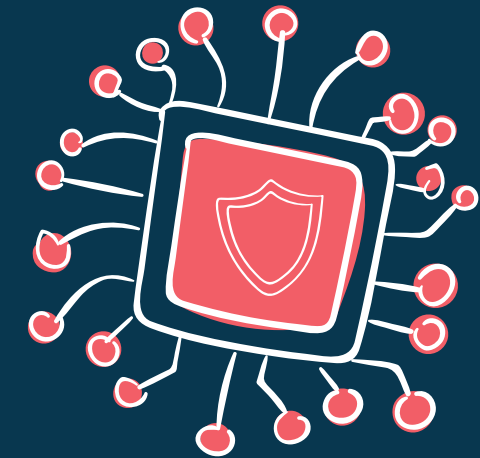

05

Use A Cloud Firewall To Prevent Malicious Network Traffic

06

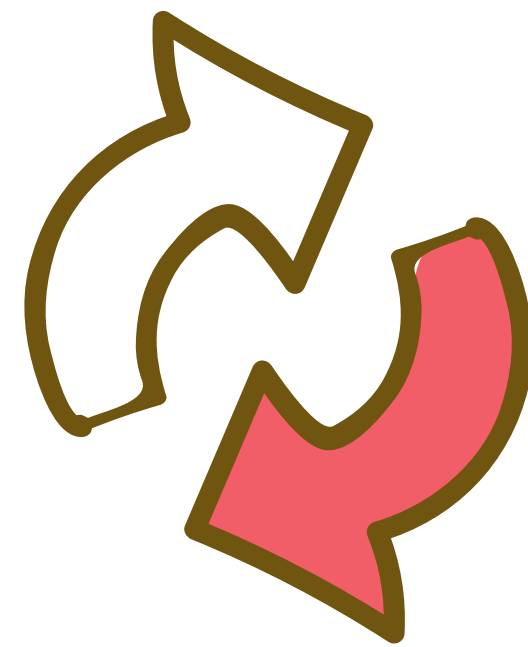

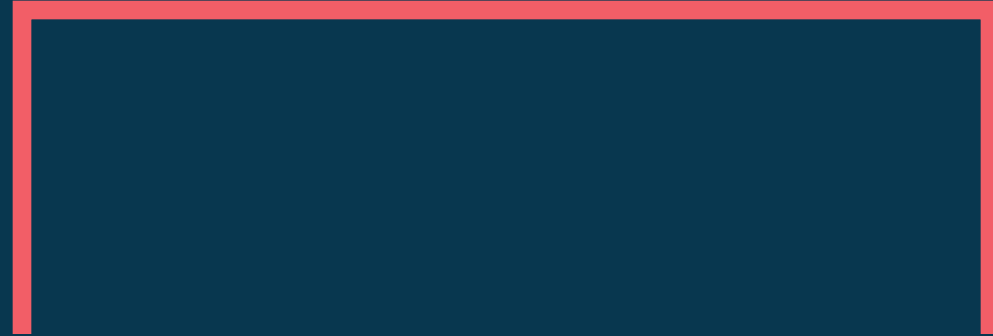

Rely On Cloud IDS
(Intrusion Detection
System) For Improved
Functionality

07

Regular Updates And Patches Are A Must-Have

Are you worried about cloud
security and governance?
